Mayor Wilson opened the public hearing. PWD Schreifels gave an overview of the Municipal Separate Storm Sewer System (MS4) general permit as mandated by the federal regulations under the Clean Water Act and administered by the Minnesota Pollution Control Agency. The MS4 permitting program gives owners or operators of municipal separate storm systems approval to discharge stormwater to lakes, rivers and wetlands. The primary goal of the MS4 general permit is to improve water quality by reducing pollutants in stormwater discharges and aims to ensure proper management of stormwater discharges into waters of the state.

A review of the six important components of Stormwater Pollution Prevention program of the City of Glencoe for 2017 was presented.

There was no public input. Motion to close the hearing by Councilor Robeck and second by Councilor Neid. Members voting in favor were Neid, Alexander and Schrupp. Robeck entered a no vote. Motion carried.
RESOLUTION NO. 2018-02 SETTING TIF HEARING

Since the last meeting, the developer has indicated that their financial projections were hitting a shortfall after recalculating their development costs. Based on the new information and request for sharing the tax increment that would be generated through the project to offset the shortfall, we worked with Shannon Sweeney to determine appropriate options. It was ultimately determined to establish a housing Tax Increment Financing district to provide sufficient revenues to accommodate this request since TIF increment would include the School District and County tax revenues.

Councilor Schrupp entered the following resolution and moved for its adoption:
