

Nuvera Communications Gig City Project Kicks Off in Glencoe

Nuvera Gig Cities Project Connects Communities with NuFiber to the Home Bringing World-Class Speeds by Powered by Local Teams

Glencoe, Minnesota (May 19, 2022) –Nuvera Communications, Inc. (OTC: NUVR) a diversified communications company, is officially kicking off construction for the Nuvera Gig Cities Project in Glencoe. Nuvera’s Gig Cities project connects communities with NuFiber bringing world-class symmetrical internet speeds to the home.

Nuvera’s Gig Cities Project is investing \$200+ million dollars to build an enhanced fiber internet infrastructure across its network that delivers speeds ten times faster than the average speed in Minnesota.

“Nuvera’s NuFiber home internet is a major leap forward in how we deliver service with industry-leading fiber optic technology throughout Glencoe, delivering world-class speeds powered by our dedicated local teams,” said Glenn Zerbe, Chief Executive Officer, Nuvera Communications. “Our communities need to connect seamlessly to school, work and life activities. Nuvera’s Gig City project ensures those connections are fast, reliable and secure now and for decades to come.”

Nuvera is rapidly expanding the service across the city with service turning up on a rolling basis now through the summer and fall. Customers can look for status on build out on interactive maps at [NuveraGigCities.com](https://www.nuvera.com/gigcities) or enter their customer information to get updated on service availability.

“Glencoe is known for being a small city with a big future and we need state-of-the-art infrastructure like Nuvera is building to ensure quality of life and economic opportunity for our residents and businesses,” said Mayor Ryan Voss.
