

Kaden S.

Cities provide a variety of services and programs that make our lives better, including parks & rec, street maintenance, water and sewer, libraries, police, fire, and more!

If you were mayor for a day, what would you do to make one of the services that your city provides even better? Please explain your ideas below.

If I were mayor for a day I would buy new books for the school library so kids have new books to read. I would build new stores so people do not have to go to a different town to get somethings. I would also build new businesses so people can have more jobs and make more money. I would like to build a splash pad and bmx or skate boarding parks so the kids have more fun activities to do. It is more important to add these services so your town grows and improves things for people how live in Glencoe. These services would also bring visitors to our town which means more money for businesses and the town. these are my plans if I became mayor for a day. I know they would take longer than one day to achieve but we could get them started to make are town better. I would be sad because it is fun to be mayor.
