June 5, 2025 | Project Update No. 4

Rain this week has delayed the start of construction on the project.

Upcoming work includes the following:

- **15th Street from Hennepin Avenue to Judd Avenue**
 - Temporary water is set up; will be connected to houses and go live on Monday, June 9th.
 - Topsoil stripping in boulevard, removals, and construction of new water main starting June 9th.
 - Residents on 15th Street, expect no access.
 - Construction of underground utilities will continue on 15th Street for the next two weeks.
- **Grind stumps today and tomorrow on entire project.**
- **Work on Hennepin Avenue will likely not begin until June 23rd. More info to come.**

Here is some additional information.

Survey stakes are being placed on the construction site. Destruction or alteration of survey stakes results in slowing the work and additional cost to the city.

Replacing an existing water system involves several steps. First, an aboveground temporary water system is assembled. The two-inch temporary water main and three-quarter-inch water services are assembled, connected to a hydrant, filled, disinfected, then connected to the outside spigots of the houses. At this point, the existing underground water main can be shut off and the new water main can be installed. Water will be supplied to individual housing units through smaller pipes that branch out to the homes. Temporary water will only be installed in areas of the project where the existing water main is being replaced. In certain locations, these temporary water lines may cross the street and/or driveways. Gravel will be placed over the top of these lines so that vehicles can safely drive over them. Please do not move the temporary water lines. You may carefully trim next to the hoses and pipes, but please do not mow over them.

If you are interested in receiving future Project Updates by e-mail, please send your name, property address, and e-mail address to Julie Brinkman at jbrinkman@sehinc.com.

Please remember that schedules can change at a moment's notice because of weather, delays by subcontractors, or other unforeseen events.

If you have any questions or concerns, either now or as the project progresses, feel free to contact me.

Doug Maeder, Resident Project Representative
