August 25, 2025 | Project Update No. 17

Beginning Tuesday, August 26th, through Friday, August 29th, CR 83 will be closed between 20th Street and 23rd Street while storm sewer is installed. The 20th Street intersection will remain open. This will complete the pipe work along CR 83.

Phase 3 of the project is anticipated to begin on September 2nd. An additional bank of temporary mailboxes will be installed during this final phase of the project. The location will be provided once installed. The Postmaster will notify residents if their mail will be delivered to the temporary mailboxes.

Beginning September 2nd, 18th Street from Hennepin Avenue to the alley east of Greeley Avenue will be closed, as will Hennepin Avenue from 18th Street to 20th Street. The 20th Street intersection will remain open.

Hennepin Avenue will be closed from 13th Street to 20th Street, with the exception of the 16th Street crossing.

Attached is a map showing the road closures and access routes to Glencoe Regional Health (GRH). All access to the hospital will need to be from the 20th Street entrance.

Here is some additional information.

Please remember that schedules can change at a moment's notice because of weather or delays by private utility companies that are not under direct control of the City or the City's contractor.

During construction, there will be times when streets are closed to traffic. Residents will need to park on adjacent streets and walk to their homes. If you intend to walk across your neighbor's yard for access to your home during this time, please talk to your neighbor and ask their permission before doing so.

This is a reminder that anything within the public right-of-way (approximately 13 feet behind existing curb) is in jeopardy of being damaged and/or removed. This includes landscaping, sprinkler or pet containment systems, etc. Sprinkler and pet containment systems are considered "private" facilities. Locating them and marking them in and near the right-of-way is the property owner's responsibility. It would be helpful for those of you who have sprinkler or pet containment systems to contact me so that we are made aware of them. **Any damage to those systems as a result of failing to locate and mark them will be the property owner's responsibility.**

If you are interested in receiving future Project Updates by e-mail, please send your name, property address, and e-mail address to Julie Brinkman at jbrinkman@sehinc.com.

If you have any questions or concerns, feel free to contact me.

Doug Maeder, Resident Project Representative

Closures beginning
September 2, 2025

16th St. intersection will
be open until Sept. 15th.
